Dear Chair and Committee Members

It is with great pleasure that we nominate Jordan Cook for the Excellence in Service Award.

Highest level of service to the School community

Fondly known as the 'go-to' for most things at our School, Jordan receives calls daily from students, staff and faculty who call upon her experience and know-how for information and advice. Jordan is helpful, caring, resourceful, and happy to offer service no matter the task.

Jordan takes it upon herself to provide exceptional support and service to new faculty and staff. She discerns quickly their individual needs and moves efficiently to provide key information, recommendations, or direction. One of Jordan's former supervisors wrote:

Jordan is a wonderful ambassador for our university...in assisting faculty, students and staff as they navigate the university bureaucracy and in greeting visitors and guests. If she did not exist, we would try to invent her.

Jordan is a fantastic teammate...always cheerful and exceptional in everything she does. Her quick wit, attention to detail, and loyalty to the university have endeared her to her colleagues. She is a true champion for higher education with a tireless commitment to serving our university.

Goes beyond the requirements of their position to creatively promote the School's core values

In addition to performing her job at an exemplary level, Jordan demonstrates an extraordinary commitment to her university community as well as to the general public. Although Jordan is responsible for a complex workload, she can often be found assisting a recently hired co-worker or helping the other colleagues.

Jordan consistently finds ways to help her co-workers. Her willingness to assist others and her commitment to supporting colleagues is unequalled. She often performs above and beyond and recently offered her expertise and planning skills to navigate a job search to the point of providing detailed itineraries for several external candidates. Even though this was not required of her, she did so willingly and cheerfully.

Contributes to the overall success of students, clients and colleagues

Jordan makes it a point to learn every student's name. Regularly I can hear her on the phone and she is checking to find out how they are doing and if they have any follow-up questions. Below are just a few of the email comments I've received regarding Jordan's service:

"I really appreciated how helpful Jordan was and how she made all of us feel at ease."

"I think she could tell I was still confused at the end of our conversation because she offered to provide additional explanation personalized to my own situation. That was so unexpected and thoughtful of her."

Improving work processes that anticipate client needs and interests

Earlier this year, Jordan asked if she could put together a "best practices" training manual to share with the other offices. She jumped at the chance to research changes that would directly impact colleagues and took pride in being able to create new processes. Her efforts not only benefitted Werklund School staff, but they also set an example and inspired her co-workers to stay pro-active on their topics.

Continuously expanding knowledge and skills

Jordan works tirelessly to update her knowledge of our services--and of other programs as well. She has also taken all of the necessary finance and p-card training classes to better support clients. This year she also took several Continuing Education courses to broaden her understanding of communicating with clients and colleagues.

Jordan has made a difference at our School and University and has positively impacted our students. Her skills, knowledge, willingness to help others, and dedication to our students, staff and the community make her our Excellence in Service nominee.

Sincerely,
