Class Dates: Wednesdays, 12:00 – 3:50 pm
September 5 – October 27

Last Day to Add/Drop/Swap: Due to the non-standard dates associated with this program, please check your Student Centre for the important dates pertaining to your section.

Pre-requisite: Due to the multiple pathways in the Bachelor of Education, please consult Undergraduate Programs in Education for questions related to pre-requisite courses.

Office Hours: By appointment only

Email: Students are required to use a University of Calgary (@ucalgary.ca) email address for all correspondence.

**Dear Revitalizing Indigenous Languages and Social Studies Friends,**

I’m looking forward to learning together with you again this term and continuing to create and build on what we began in Winter 2023.

COVID-19 continues to present significant challenges to the global and local communities, and for us individually and with those we love. It will take time to integrate the existential meaning of this into our own lives and experiences including what it means to be teachers and what schools are for.

The climate emergency as well as the contemporary geopolitical state of planetary relations are also leaving many humans with a sense of being profoundly unsettled.

Please let me know if you are experiencing significant stress, challenges, or difficulties that are affecting your participation in this course. We will work together to find the best and most healthy path for you. As a community learning together we will frame and shape this course into what we need to be in this time, and it is my intention that we move through our learning together with a sense of joy, curiosity, and friendship, always considering what is in the best interest(s) of children, the communities who love them, and the community of Life including the more-than-human others, now and into the future.

Jackie
Course Description:

The intent of the Specialization Seminar II is to deepen your understanding of the practical aspects of teaching within the specialization and to connect this practice with specific theoretical concepts. While this second specialization course focuses more on practical knowledge, you will also refine your knowledge of discourse and theory within the discipline and develop a deeper understanding of ways to enact this theory in a classroom context. You will additionally become familiar with any relevant Ministry documents associated with the Alberta Curriculum and draw on practical classroom observation from the field experience to participate in meaningful discussion and to connect these observations with a vision for your own teaching. The emphasis of the course is on designing for student learning (subject-specific; assessment to strengthen student learning and improve instruction; and designing for inclusion, differentiation, and inquiry).

Learner Outcomes:
Over the course of the semester, students will:

1) Further develop a deeper conceptual understanding of the historical, socio-cultural, political contexts of the discipline of Elementary Social Studies and the study of Indigenous Language/Culture Revitalization in Canada, and relate this to curriculum planning in the specialization area;

2) Identify and critique the key learning perspectives (as outlined in the front matter of the Programs of Study) and intentions (learning objectives) across the units in a grade from the Alberta Programs of Studies;

3) Successfully apply theoretical knowledge to the design of a longer-term (un)unit and assessment plan.

Additional Aims of the Course

As future teachers of both Revitalization of Indigenous Languages and Social Studies, we will deepen our understanding of the historical, socio-cultural, and political contexts that have led to the decline in and recent re-engagement with Indigenous languages as a central component of culture. This will include examining and identifying elements of the Alberta Program of Studies for Social Studies in terms of:

- key learning perspectives named within, with an emphasis on the way this document can support Indigenous language revitalization
- the specific learning intentions detailed as learning outcomes/objectives across the elementary grade levels, with a particular emphasis on the ways in which Indigenous language revitalization can be central to those learning outcomes, including an emphasis on issues related to identity, how to meaningfully engage in Indigenous perspectives, and processes related to inquiry and historical thinking
- develop an understanding of the theoretical underpinnings that inform meaningful curriculum planning that supports Indigenous language revitalization efforts and successfully apply this knowledge to the design of meaningful activities that move language revitalization efforts forward in a positive and respectful way

Course Design and Delivery: This course will be delivered face-to-face on campus with possible engagement in a D2L environment.

CHANGES TO SCHEDULE:
Please note that changes to the schedule may occur to meet the emerging needs and dynamics of the participants in the course.

LEARNING PROJECTS AND ASSESSMENT

There are THREE required Learning Projects for this course.

1. LEARNING PROJECT 1: Orienting Ourselves: Exploring Narrative Mapping
   DUE: September 20th (project) and September 27 (reflection/assessment)

Maps, mapping and cartography are, and have been, important concepts in Social Studies curriculum and pedagogy. Representing places and the world has also been a powerful colonial tool. This assignment engages us in exploring and experiencing anti-colonial practices and pedagogies so that we can integrate them into our classroom pedagogies.

The purposes of this assignment include the following (as we work and learn to develop a critical understanding of the role of cartography in Social Studies, we will create further purposes and learning outcomes together):

- Becoming familiar with mapping and cartography learning outcomes in the Alberta Program of Studies
- Exploring emerging concepts of narrative mapping as interpretive methods of learning, unlearning and relearning the stories of a place, time, and/or culture.
- Explore diverse historical and cultural conceptions and images of mapping, and inquire into how these shape understandings of land, time, space, place, history, culture, gender, etc.
- Developing critical understandings of contemporary and decolonizing (and anti-colonial) approaches to thinking about maps and cartography
- Conceptualizing ways mapping and cartography learning experiences might enliven learning in your future classrooms

The purpose of narrative mapping, or narrative cartography, is to bring place, story and experience alive. It is an ecological, ethical and relational process of coming to understand ourselves in relation to places. It is about looking at and understand places differently through animating them through the stories that emerge in, through and because of them. Finally, narrative mapping is about deepening our ethical relationality to and within the places we inhabit. It is about learning their histories, including hidden, erased or forgotten stories. This assignment asks us to pay careful, purposeful, heartfelt attention to the places we inhabit as we go about our day-to-day lives and to contemplative the relations and stories we discover there. These may be relations of love, friendship, and beauty, or they may be relations of power, oppression and violence. Through the work of narrative mapping, we learn new ways to think about and live ethically and relationally in the places and times we find ourselves. In Canada and Alberta, narrative mapping can be one important way to actively engage in Reconciliation and Treaty relationship processes in our classroom learning.

Step 1: Choose a place or route you travel or visit often (and that you can visit during this assignment). Examples include where you walk your dog, your journey to the university, the grocery store, etc. We will generate a list of possibilities.

Step 2: Draw an initial map of this place or route from memory. Write a list of events that occur here, humans and non-humans who you encounter in this place, and a list of questions you have about your map.

Step 3: As you visit your chosen place or route, pay attention (more mindfully than usual) to all your senses… take notes…. What do you See, Hear, Smell, Touch, Taste and Emotionally experience… Try to notice both your inner and
outer experiences. Where do “you” begin and end? Where does the “place” begin or end? What captures your attention? What do you wonder about? Can you find out anything about this place/route? How long has it been here? Who (human and non-human) shares this place with you? What is the place like when you aren’t here? What was here before this time, in deep history? What do you imagine to be the future of this place? What is your felt experience of this place (Positive? Negative? Neutral?)?

*We will generate a list of focus questions together and related to our readings for this project.

* **BRING** your in-process narrative map to class on Wednesday September 13th (the first three steps to share/discuss with each other.

**Step 4:** Create a map of your inquiry. The style of your map is your choice to explore. Think about aligning your style (i.e. paper, collage, fabric, 3-D diorama, digital, etc) with what makes sense for the place you have chosen to explore/map/document. Examples of what such maps can look like will be shared and explored in class. You may also find wonderful exemplars by conducting a search of images online (search maps, mapping, cartography, narrative mapping, etc.).

**NEXT:** Write/compose three to five narratives/stories as part of your map. The style of your writing is up to you, and again, think about aligning this with the spirit of the place or route you are mapping. You may choose to write autobiographically, historically, in first or third person. Your writing may sound like a conventional essay, or it may be poetry. Who else might speak in this place: Animals? Trees? Nature? Other humans, past or present? Perhaps in your sensory exploration you heard or observed other voices and recorded them (on paper or digitally) – is there a way to include these?

**Learning Project 1 Assessment:**

The Exploring Narrative Mapping assignment will be assessed by self-assessment in consultation and collaboration with the instructor and our classroom community. We will practice summative and formative assessment practices during our learning process. This part of this assignment involves collaborative, meta-cognitive/learning about assessment. The following document (as well as others) will guide our assessment design:

Thus, we will design the assessment criteria/rubric together, with an eye/mind towards what it is like to design these kinds of learning and assessment activities for/with children. Along with your project, which you will share in class on Wednesday, September 20th, please also compose a short reflective assessment essay of not more than 600 words (this part is due on Wednesday, September 27th by Dropbox). This is an opportunity for you to reflect on both the design and assessment of this kind of work with children, through experiencing it for yourself and discussing it with others.

The focus of your assessment/summary reflection will be to connect the work you’ve done on your own project, and what you’ve witnessed/learned with our classroom community, to TQS #5 and the TRC goals for education. We will discuss this in class on the day of the presentations/sharing.

We will create a list of possible reflective questions as part of our assessment design process. The purpose of working through this together is to engage in the challenges and complexities of anti-colonial and decolonizing Social Studies (and other disciplinary) assessment for diverse learners (e.g. What is good work and how do we know? How do we discern what was learned? (rather than merely what was produced?). What counts as evidence of learning? What information do we gain as teachers from children’s (and our own) work and how do we use this information to plan for day-to-day learning and growth? What kinds of documentation might we use to share with parents, children and administration? How do we engage children in assessment of their own learning and work? Etc.).
2. **LEARNING PROJECT 2: (UN)UNIT (LEARNING/CURRICULUM) AND ASSESSMENT PLAN DRAFT (GROUP)**

**DUE: OCTOBER 4, 2023**

In a group of 3-4 teacher peers, design a draft (un)unit/learning plan.

This process will be completed in class, with guidance from the instructor and one another.

See the description of Learning Project #3. This group draft project will follow the same guidelines and instructions.

Engage us in one or more of the learning activities (“lessons”) in your plan. Receive feedback. (We will collaboratively discuss this and make the schedule for how long your sharing and activity can take)

**CRITERIA FOR ASSESSMENT OF LEARNING PROJECT #2**

Assessment will be collaboratively designed, based on the work and learning that creatively co-emerges.

We will practice summative and formative assessment practices during our learning process. Our assessment will engage in collaborative, meta-cognitive/learning about assessment that will support you in your field experiences.

The following document, along with the TQS, will guide our collaborative assessment design and your self-assessment:

3. **LEARNING PROJECT #3: (UN)UNIT (LEARNING/CURRICULUM) AND ASSESSMENT PLAN DRAFT (INDIVIDUAL)**

**DUE: OCTOBER 25 (PRESENTATION AND HARD COPY)**

This project continues the learning and planning begun in our groups (#2) by revising the draft plan your group has designed to make it your own. Using the feedback received on your draft plan, revise and reformulate it into final form. Time will be given in class to work on these plans/projects with the guidance and formative feedback from instructor and peers.

Minimally, your plan (and the group draft plan for project #2) should focus on the following and be illustrative of key aspects of theory introduced in the course.

1. Designing an (un)unit plan for learning and an assessment plan to foster deep understanding of a key disciplinary concept and/or competency.
2. Including a rationale for the learning plan, as supported by theory and discipline.
3. Discussion of practicalities of enacting this learning and assessment plan: fitting it into a larger context/concept, integration of effective formative assessment strategies for scaffolding and adapting to the needs of diverse learners, etc.
4. Align plan with the TQS.

**You may use any style or template for your plan that makes sense for your topic. The following is a suggested path for organizing your thinking/planning/presenting:**

A. **Unit Title, Subject Area, and Topic** – *The theme of your unit.* This should be developed in consultation with the instructor and should be clearly and specifically titled.

B. **Reference to Alberta Education Curriculum or standards,** *as it applies to your un-unit.* Identify how your planning fits within the Alberta Curriculum. Provide an explanation if it doesn’t fit explicitly.

C. **Grade Level(s)** – *The grade in which the subject is taught*

D. **Rationale** – Provide a paragraph explanation where the value of the un-unit is presented/discussed.

E. **Learning Outcomes** – describe the learning outcomes for the overall unit (longer term). In your lesson plans, describe the learning outcomes or goals for that specific lesson (shorter term). One or more of these may overlap. Five or six learning outcomes should define what the students should know/be able to do by the end of the unit and lessons. We will discuss in class what “lesson” plans should specifically include and various formats for writing/documenting them.

F. **Key Instructional Practices and Assessment** – Details about the main methods for teaching and learning through the un-unit and possible assessment practices. This is specifically about how you will teach the content. Will the students work as a whole class, in groups, or individually? How will you transition into different activities? How will you scaffold activities? How will materials be used? How will you discern and document student learning to inform and support your teaching.

G. **List of Sources** – *All sources consulted in preparation of the unit should be listed. Note: multiple sources are expected.* Present a reference page in APA format.

H. **List of Materials** – *List all materials needed to teach the unit that are not readily available to the teacher every day.* Be specific!

J. **Learner Differentiation/Explanation of how the unit plan addresses all students’ needs** *Demonstrate how your plan addresses the interests and needs of a range of students.* Show how you will teach inclusively and in an anti-colonial manner, address the TQS and goals of EDIA.

K. **Creativity and Innovation** Detail how your unit will include a variety of teaching methods, with specific reference to creative teaching that engages all students. Include discussion of your inclusion of technology in the curriculum and ways to include interdisciplinarity and connections to other subject areas.

**Criteria For Assessment of Learning Project #3**

Assessment will be collaboratively designed, based on the work and learning that creatively co-emerges

We will practice summative and formative assessment practices during our learning process. Our assessment will engage in collaborative, meta-cognitive/learning about assessment that will support you in your field experiences and in being able to independently self-assess your own learning and planning as a teacher.
The following document, along with the TQS, will guide our collaborative assessment design and your self-assessment:

READINGS and RESOURCES to support our learning

REQUIRED:

*options: you can purchase this book at the bookstore, several copies are available in the library, or you may listen to Thomas King read the book at: https://www.cbc.ca/radio/ideas/the-2003-cbc-massey-lectures-the-truth-about-stories-a-native-narrative-1.2946870

ADDITIONAL RESOURCES:

*Weekly readings will be selected from the following bibliography. This list includes required readings as well as additional readings that may support you in your assignments, learning and progress throughout your program and specialization. Please note that our reading schedule is subject to change based on classroom participant interest and global events. Further readings may be added by recommendation of students or if published during our course.*

THE EXPECTATION OF EXCELLENCE IN PROFESSIONAL WORK

Please review the Academic Calendar carefully. It describes the program and provides detailed schedules and important dates. It contains information on expectations for student work and professional conduct. In addition, procedures are described regarding concern about student performance in the program. Please pay especially careful attention to details and descriptions in the following topic areas:

- The Importance of Attendance and Participation in Every Class

As this is a professional program, experiences are designed with the expectation that all members will be fully involved in all classes and in all coursework experiences. As you are a member of a learning community your contribution is vital and highly valued, just as it will be when you take on the professional responsibilities of being a teacher. We expect that you will not be absent from class with the exception of documented instances of personal or family illness or for religious requirements.

- Engagement in Class Discussion and Inquiry

Another reason for the importance of attendance and participation in every class is that the course involves working with fellow students to share ideas and thinking. For example, each class you will work with a small group to engage fellow students in discussions on work being considered in class. You will also help other groups by providing ideas for scholarly inquiry in assignments. If you find that you are experiencing difficulties as a group collaborating, please inform the instructor.

EXPECTATIONS FOR WRITING

All written assignments (including, to a lesser extent, written exam responses) will be assessed at least partly on writing skills. Writing skills include not only surface correctness (grammar, punctuation, sentence structure, etc.) but also general clarity and organization. Sources used in research papers must be properly documented. If you need help with your writing, you may use the writing support services in the Learning Commons. For further information, please refer to the official online University of Calgary Calendar, Academic Regulations, E. Course Information, E.2: Writing Across the Curriculum: [http://www.ucalgary.ca/pubs/calendar/current/e-2.html](http://www.ucalgary.ca/pubs/calendar/current/e-2.html)

LATE SUBMISSIONS

All late submissions of assignments must be discussed with the instructor prior to the due date. Students may be required to provide written documentation of extenuating circumstances (e.g. statutory declaration, doctor’s note, note from the University of Calgary Wellness Centre, obituary notice). A deferral of up to 30 days may be granted at the discretion of the Associate Dean of Undergraduate Programs prior to the end of the course with accompanying written evidence.

ISSUES WITH GROUP TASKS

With respect to group work, if your group is having difficulty collaborating effectively, please contact the instructor immediately. If a group is unable to collaborate effectively or discuss course materials online in a timely manner, the instructor may re-assign members to different groups or assign individual work for completion.

Students in the B.Ed. program must have an overall GPA of 2.5 in the semester to continue in the program without repeating courses.

### Academic Accommodation

It is the student’s responsibility to request academic accommodations according to the University policies and procedures listed below. The student accommodation policy can be found at: [https://www.ucalgary.ca/legal-services/sites/default/files/teams/1/Policies-Student-Accommodation-Policy.pdf](https://www.ucalgary.ca/legal-services/sites/default/files/teams/1/Policies-Student-Accommodation-Policy.pdf). Students needing an accommodation because of a disability or medical condition should communicate this need to Student Accessibility Services in accordance with the Procedure for Accommodations for Students with Disabilities: [ucalgary.ca/legal-services/sites/default/files/teams/1/Policies-Accommodation-for-Students-with-Disabilities-Proced.pdf](ucalgary.ca/legal-services/sites/default/files/teams/1/Policies-Accommodation-for-Students-with-Disabilities-Proced.pdf). Students needing an accommodation in relation to their coursework based on a Protected Ground other than Disability, should communicate this need, preferably in writing, to their Instructor.

### Academic Misconduct

For information on academic misconduct and its consequences, please see the University of Calgary Calendar at [http://www.ucalgary.ca/pubs/calendar/current/k.html](http://www.ucalgary.ca/pubs/calendar/current/k.html)

### Attendance/ Prolonged Absence

Students may be asked to provide supporting documentation for an exemption/special request. This may include, but is not limited to, a prolonged absence from a course where participation is required, a missed course assessment, a deferred examination, or an appeal. Students are encouraged to submit documentation that will support their situation. Supporting documentation may be dependent on the reason noted in their personal statement/explanation provided to explain their situation. This could be medical certificate/documentation, references, police reports, invitation letter, third party letter of support or a statutory declaration etc. The decision to provide supporting documentation that best suits the situation is at the discretion of the student.

Falsification of any supporting documentation will be taken very seriously and may result in disciplinary action through the Academic Discipline regulations or the Student Non-Academic Misconduct policy.
The Freedom of Information Protection of Privacy Act prevents instructors from placing assignments or examinations in a public place for pickup and prevents students from access to exams or assignments other than their own. Therefore, students and instructors may use one of the following options: return/collect assignments during class time or during instructors’ office hours, students provide instructors with a self-addressed stamped envelope, or submit/return assignments as electronic files attached to private e-mail messages.

For additional resources including, but not limited to, those aimed at wellness and mental health, student success or to connect with the Student Ombuds Office, please visit https://www.ucalgary.ca/registrar/registration/course-outlines
