**Last Day to Add/Drop/Swap:** Due to the non-standard dates associated with this program, please check your Student Centre for the important dates pertaining to your section.

**Pre-requisite:** Due to the multiple pathways in the Bachelor of Education, please consult Undergraduate Programs in Education for questions related to pre-requisite courses.

**COURSE DESCRIPTION:**

The intent of the Specialization Seminar II is to deepen students’ understanding of the practical aspects of teaching within the specialization and to connect this practice with specific theoretical concepts. While this second specialization course focuses more on practical knowledge, students will also refine their knowledge of discourse and theory within the discipline and develop a deeper understanding of ways to enact this theory in a classroom context. Students will additionally become familiar with any relevant Ministry documents associated with the Alberta Curriculum and draw on practical classroom observation from the field experience to participate in meaningful discussion and to connect these observations with a vision for their own teaching. The emphasis of the course is on designing for student learning (subject-specific; assessment to strengthen student learning and improve instruction; and designing for inclusion, differentiation, and inquiry).

**LEARNER OUTCOMES:**

Over the course of the semester, students will

1. Further develop a deeper conceptual understanding of the historical, socio-cultural, political contexts of the discipline, and relate this to curriculum planning in the specialization areas;
2. Identify and critique the key learning perspectives (as outlined in the front matter of the Programs of Study) and intentions (learning objectives) across the units in a grade from the Alberta Programs of Study;
3. Successfully apply theoretical knowledge to the design of a longer-term unit and assessment plan.

**COURSE DESIGN AND DELIVERY – ON-LINE:**

The course will consist of synchronous and asynchronous learning. Synchronous sessions are by Zoom and scheduled by the UPE office. Asynchronous learning is primarily through D2L.

### LEARNING TASKS OVERVIEW

There are 3 required learning tasks for this course. Completion of all assigned tasks is required for a passing grade in the course. Late assignments will be deducted 10% for each day.

LEARNING TASK NUMBER	DESCRIPTION OF LEARNING TASK	PERCENT OF FINAL GRADE	GROUPING FOR TASK
Learning Task #1	Language Teaching Method Project	40%	Group
Learning Task #2	Design a Unit and Assessment Plan	40%	Individual
Learning Task #3	Final Paper	20%	Individual

### LEARNING TASKS AND ASSESSMENT

#### 1. **LEARNING TASK 1: Language Teaching Method Project DUE: Different Dates**

Based on Larsen-Freeman, D. & Anderson, M. (2011). *Techniques and principles in language learning* (3rd ed.). Oxford University Press.

This is a two-part group learning task.

Part 1: Language Teaching Method Document

Create a 3-page document illustrating, describing, critiquing of the language teaching method that you signed up for. It includes: background, definition, critiques, examples of specific activities (one or two), additional activities, critiques, and references. Multiple sources beyond Larsen-Freeman (2011) are expected. Include references in APA 7 format. You will post this document to the Class Discussion Board by Monday at 9:30 am of your week.

Part 2: Teach a mini lesson to demonstrate a language teaching method. Each group will be responsible for creating a 20-minute presentation (Maximum time: capped @ 22 minutes). The purpose of this presentation is to demonstrate how your language teaching method looks in action. You may base your presentation from ones you have read about or seen, but as a group, you are expected to make the presentation your own. In your presentation, briefly introduce the method, demonstrate one or two activities, and discuss strengths and weaknesses of the method at the end. For this part of the task, you are encouraged to use multimedia tools such Stop motion animation In Google slides, a recorded video (e.g., Chatterpix, Triller, Telestory), present slides with Screencast recording (e.g., using Zoom, Screencastify), or create a modified PowerPoint or Prezi presentation with integrated audio and video. The presentation will represent a cohesive synthesis of all group members' work, but individuals may take on different roles (e.g., teacher/students; narrator/designer/writer/artist).

You will post a link to this presentation to the Class Discussion Board by Monday at 9:30 am of your week, followed by two guiding questions for your classmates to discuss and answer in their peer feedback. All group members are expected to engage with the discussion that occurs in the Class Discussion Board during the week that you have signed up.

### **CRITERIA FOR ASSESSMENT OF LEARNING TASK 1**

### **Summary of Grading Based on Above Criteria**

An *A+ to A* project will present a complete and quality document that is organized, well written, and supported. This document is exceptional in that the information is informative, clear, easy to understand and presented in a visually appealing format. Demonstration of language teaching method is well planned and executed. It includes techniques and activities appropriate to the method. Group members work together as a team and provide high quality responses to classmates' questions timely and regularly during the week.

An *A- to B+* project will present a document that is mainly complete. Quality could be improved. It is generally well written and developed. The document is presented mainly in a visually appealing format. Demonstration of language teaching method is mainly well planned and executed. It includes techniques and activities appropriate to the method. Group members work together as a team and provide good quality responses to classmates' questions timely and regularly during the week

A *B to C+* project may present a roughly sketched document in need of some refinement. Information about the language teaching method is not clear, not informative, includes errors (eg. spelling, punctuation). The document is poorly presented. Demonstration of language teaching method is not well planned and executed. It includes techniques and activities inappropriate to the method. Group members do not work together as a team and provide low quality responses to classmates' questions during the week.

**2. LEARNING TASK 2: Design a Unit and Assessment Plan Due: Wednesday, October 20, 2021 (40%) Please email your instructor a draft of your Unit and Assessment Plan by Wednesday, October 13 for feedback**

For this assignment, students will individually design a unit learning plan, illustrative of key aspects of theory introduced in the course. The learning design and the theoretical framework supporting it will be (posted online for analysis and “feedforward” suggestions from members of the class using the Teaching Effectiveness Framework and Rubric and the 5 key strategies of formative assessment (Leahy et al., 2005) as lenses, available

<http://ezproxy.lib.ucalgary.ca/login?url=http://search.ebscohost.com/login.aspx?direct=true&db=ehh&AN=18772694&site=ehost-live>

1. Designing a unit-plan for learning and assessment plan to sponsor deep understanding of a key disciplinary concept and/or competency.
2. Including a rationale for the learning plan, as supported by theory and discipline.
3. Discussion of practicalities of enacting this learning and assessment plan: fitting it into a larger context/concept, integration of effective formative assessment strategies for scaffolding and adapting to the needs of diverse learners.

**CRITERIA FOR ASSESSMENT OF LEARNING TASK 2**

**A. *Unit Title, Subject Area, and Topic*** – The theme of your unit. This should be developed in consultation with your instructor and should be clearly and specifically titled.

**B. *Reference to Alberta Education Curriculum or standards as it applies to your discipline/unit.*** Identify how your unit fits within the Alberta Curriculum. Provide an explanation if it doesn't fit explicitly.

**C. *Grade Level*** – The grade in which the subject is taught.

**D. *Unit Rationale*** – Provide a paragraph explanation where the value of the unit is presented. This rationale should support your choice to create a full unit on this topic.

E. **Learning Outcomes** – Describe the learning outcomes for the overall unit (longer term). In your lesson plan, describe the learning outcomes or goals for that specific lesson (shorter term). One or more of these may overlap. Five or six learning outcomes should define what the students should know/be able to do by the end of the unit and lesson. Specific language outcomes (e.g., vocabulary, key sentence structures, and/or discourse structures) need to be included.

F. **Key Instructional Practices Procedures** – Details about the main methods for teaching through the unit. This is specifically about how you will teach the content. How will you teach language and content simultaneously? Will the students work as a whole class, in groups, or individually? How will you transition into different activities? How will you scaffold activities? How will materials be used? Examples of activities of language teaching methods can be included.

G. **List of Sources** – All sources consulted in preparation of the unit should be listed. Note: multiple sources are expected. Present a reference page in APA 7 format.

H. **List of Materials** – List all materials needed to teach the unit that are not readily available to the teacher every day. Be specific!

I. **Learner Differentiation/Explanation of how the unit plan addresses all students' needs** - Demonstrate how your plan addresses the interests and needs of a range of students. Show how you will teach inclusively. For example, how will you address students with special needs? English language learners? Gifted students? Students who excel at group work or at independent time?

J. **Creativity and Innovation** - Detail how your unit will include a variety of teaching methods, with specific reference to creative teaching that engages all students. Include discussion of your inclusion of technology in the curriculum and ways to include interdisciplinarity.

### **3. LEARNING TASK 3: Paper Due: Friday, October 29, 2021 (20%)**

Imagine you had a friend or relative who was thinking about teaching. Write a paper (5-7 pages) telling them what you have learned in this class about teaching ELLs. Be sure to include topics that affected you most in this class. You can use “I” in your paper.

#### **CRITERIA FOR ASSESSMENT OF LEARNING TASK 3**

Your paper should:

- Articulate original thoughts and ideas related to your future teaching; connect your original thoughts to your future teaching
- Draw upon relevant evidence from the course and your own learning and teaching experiences; connect evidence to your future teaching (eg. Do not summarize the readings; use the readings to support what you have learned about teaching ELLs and why)
- Demonstrate understanding of concepts and theories related to teaching ELLs and what it means for ELLs; connect to your future teaching
- Be clear and accurate
- Include at least 2 peer reviewed references, and cite in APA 7.

You may also want to draw upon:

- Class Discussions

### THE EXPECTATION OF EXCELLENCE IN PROFESSIONAL WORK

Please review the Academic Calendar carefully. It describes the program and provides detailed schedules and important dates. It contains information on expectations for student work and professional conduct. In addition, procedures are described regarding concern about student performance in the program. Please pay especially careful attention to details and descriptions in the following topic areas:

- *The Importance of Attendance and Participation in Every Class*

As this is a professional program, experiences are designed with the expectation that all members will be fully involved in all classes and in all coursework experiences. As you are a member of a learning community your contribution is vital and highly valued, just as it will be when you take on the professional responsibilities of being a teacher. We expect that you will not be absent from class with the exception of documented instances of personal or family illness or for religious requirements.

- *Engagement in Class Discussion and Inquiry*

Another reason for the importance of attendance and participation in every class is that the course involves working with fellow students to share ideas and thinking. For example, each class you will work with a small group to engage fellow students in discussions on work being considered in class. You will also help other groups by providing ideas for scholarly inquiry in assignments. If you find that you are experiencing difficulties as a group collaborating, please inform the instructor.

### EXPECTATIONS FOR WRITING

All written assignments (including, to a lesser extent, written exam responses) will be assessed at least partly on writing skills. Writing skills include not only surface correctness (grammar, punctuation, sentence structure, etc.) but also general clarity and organization. Sources used in research papers must be properly documented. If you need help with your writing, you may use the writing support services in the Learning Commons. For further information, please refer to the official online University of Calgary Calendar, Academic Regulations, E. Course Information, E.2: Writing Across the Curriculum:

<http://www.ucalgary.ca/pubs/calendar/current/e-2.html>

### LATE SUBMISSIONS

All late submissions of assignments must be discussed with the instructor **prior to the due date**. Students may be required to provide written documentation of extenuating circumstances (e.g. statutory declaration, doctor's note, note from the University of Calgary Wellness Centre, obituary notice). A deferral of up to 30 days may be granted at the discretion of the Associate Dean of Undergraduate Programs with accompanying written evidence.

### ISSUES WITH GROUP TASKS

With respect to group work, if your group is having difficulty collaborating effectively, please contact the instructor immediately. If a group is unable to collaborate effectively or discuss course materials online in a timely manner, the instructor may re-assign members to different groups or assign individual work for completion.
