### LEARNING TASKS AND ASSESSMENT

There are two required Learning Tasks for this course.

- 1. LEARNING TASK 1: Creating a professional resume and teaching philosophy statement (cover letter): D2L Resource Post Uploaded by 11:59 pm: January 12, 2024  
Resume and Philosophy Statement Due by 11:59 pm: January 19, 2024**

For this first task, you will create a professional resume and write a 500-600 word teaching philosophy statement. The purpose of this task is to help you define your professional identity and refine your resume to reflect an education/teaching focus.

You will also write **one discussion post** by the end of Week 1 providing a link to an evidence-based resource you used to develop your teaching philosophy statement. This resource might be theoretical or practical in nature, but it should assist your classmates with moving forward with their project. Completion of this D2L post is one component of your first task and must be uploaded by January 12, 2024, but it can be uploaded earlier.

**Your resume will contain** some or all of the following elements as they relate to getting a job in the education field:

- *Objective and Single Teaching Philosophy Statement* (What is your intent?)
- *Skills and Competencies* (What are my key strengths and skills as an aspiring K-12 teacher?)
- *Education* (including practicum experience)
- *Work Experience* (Which job experiences relate to working with children and youth?)
- *Volunteer Experience* (Which volunteer experiences relate to working with children and youth?)
- *Professional Learning and Certifications* (What professional organizations or other learning opportunities have you accessed?)
- *Related Interests* (What other areas/strengths do you have?)
- You should access the Student Career Services website for templates, examples, and other support. <https://www.ucalgary.ca/student-services/careers>

**In your 500–600-word teaching philosophy statement**, you will briefly describe your beliefs about teaching and learning, teaching strengths, and future goals.

You might consider the following questions as you brainstorm your philosophy statement:

- What are my beliefs about teaching and learning in K-12 classrooms?
- Why do I hold these beliefs?
- Who or what has most informed my teaching approaches?
- What difference do I hope to make as a K-12 teacher?
- How have my beliefs been influenced by my educational courses to date?
- What teaching and learning strategies do I use?
- What sets me apart as an aspiring K-12 teacher?
- How will I continue to grow, develop, and improve as a K-12 teacher?
- What interests me the most about teaching in K-12 classrooms?
- What are my aspirations within the education field?

**CRITERIA FOR ASSESSMENT OF LEARNING TASK 1**

In case of discrepancies, the rubric on D2L will be taken as correct.

**2. LEARNING TASK 2: Visual representation of interviews with partner teachers**

**Draft submission due (D2L post for peer feedback and discussion):** February 5-7, 2024

**Final submission due for grading:** February 9, 2024

In this learning task, you will have the opportunity to interview and summarize advice from practicing teachers with regards to their first years of instruction. In groups of 4-5 people, you will choose three of your partner teachers from your Field Experience 3 to interview about their early career and advice they have for first year teachers.

You should ask at least 5-7 questions that are agreed upon by your group during the interviews. Questions you might ask include:

1. What inspired you to become a teacher?
2. Tell us about your first year of teaching. What were your main highlights and challenges?
3. What helpful advice did you get during your first year of teaching?
4. What is some advice you have to share with first year teachers?
5. What were some effective strategies you have used to support your well-being?

Develop an infographic or other visual representation that captures the main themes and advice you gathered from the three interviews. What stood out to your group from the interviews as important and helpful as you move into your first year of teaching?

Upload your infographic to D2L in a discussion post and include one highlight or main learning about the first year of teaching per group member. While a group discussion post, each individual's learning and voice should be effectively captured in the text. This group post should be no more than 500 words.

Your infographic or other visual representation will be assessed according to incorporating meaningful, reference to course required materials and texts, and clarity of the presentation.

### **THE EXPECTATION OF EXCELLENCE IN PROFESSIONAL WORK**

Please review the Academic Calendar carefully. It describes the program and provides detailed schedules and important dates. It contains information on expectations for student work and professional conduct. In addition, procedures are described regarding concern about student performance in the program. Please pay especially careful attention to details and descriptions in the following topic areas:

- *The Importance of Attendance and Participation in Every Class*

As this is a professional program, experiences are designed with the expectation that all members will be fully involved in all classes and in all coursework experiences. As you are a member of a learning community your contribution is vital and highly valued, just as it will be when you take on the professional responsibilities of being a teacher. We expect that you will not be absent from class with the exception of documented instances of personal or family illness or for religious requirements.

- *Engagement in Class Discussion and Inquiry*

Another reason for the importance of attendance and participation in every class is that the course involves working with fellow students to share ideas and thinking. For example, each class you will work with a small group to engage fellow students in discussions on work being considered in class. You will also help other groups by providing ideas for scholarly inquiry in assignments. If you find that you are experiencing difficulties as a group collaborating, please inform the instructor.

### **EXPECTATIONS FOR WRITING**

All written assignments (including, to a lesser extent, written exam responses) will be assessed at least partly on writing skills. Writing skills include not only surface correctness (grammar, punctuation, sentence structure, etc.) but also general clarity and organization. Sources used in research papers must be properly documented. If you need help with your writing, you may use the writing support services in the Learning Commons. For further information, please refer to the official online University of Calgary Calendar, Academic Regulations, E. Course Information, E.2: Writing Across the Curriculum: <http://www.ucalgary.ca/pubs/calendar/current/e-2.html>

### LATE SUBMISSIONS

All late submissions of assignments must be discussed with the instructor **prior to the due date**. Students may be required to provide written documentation of extenuating circumstances (e.g. statutory declaration, doctor's note, note from the University of Calgary Wellness Centre, obituary notice). A deferral of up to 30 days may be granted at the discretion of the Associate Dean of Undergraduate Programs prior to the end of the course with accompanying written evidence.

With respect to group work, if your group is having difficulty collaborating effectively, please contact the instructor immediately. If a group is unable to collaborate effectively or discuss course materials online in a timely manner, the instructor may re-assign members to different groups or assign individual work for completion.

*\*Please note that all assignments are expected to be the original work of the student and students are not to employ text generation software (for example, ChatGPT).*

#### Academic Misconduct

For information on academic misconduct and its consequences, please see the University of Calgary Calendar at <http://www.ucalgary.ca/pubs/calendar/current/k.html>

### **Attendance/ Prolonged Absence**

Students may be asked to provide supporting documentation for an exemption/special request. This may include, but is not limited to, a prolonged absence from a course where participation is required, a missed course assessment, a deferred examination, or an appeal. Students are encouraged to submit documentation that will support their situation. Supporting documentation may be dependent on the reason noted in their personal statement/explanation provided to explain their situation. This could be medical certificate/documentation, references, police reports, invitation letter, third party letter of support or a statutory declaration etc. The decision to provide supporting documentation that best suits the situation is at the discretion of the student.

Falsification of any supporting documentation will be taken very seriously and may result in disciplinary action through the Academic Discipline regulations or the Student Non-Academic Misconduct policy.

**The Freedom of Information Protection of Privacy Act** prevents instructors from placing assignments or examinations in a public place for pickup and prevents students from access to exams or assignments other than their own. Therefore, students and instructors may use one of the following options: return/collect assignments during class time or during instructors' office hours, students provide instructors with a self-addressed stamped envelope, or submit/return assignments as electronic files attached to private e-mail messages.
