

Lakeland College – Transferable Courses

Last Updated: Sept 2021

The below acts as a 'starter' list of course ideas to fulfill the 6 Foundational and/or 5 Elective course requirements, and some of the teachable courses mandatory of all Teachable Subject Areas in our 4-year program. This list does not fully reflect all of Lakeland's course offerings, and may quickly become out-of-date as this institution updates or offers new courses. Students are thus encouraged to use the below list to start their course selection, but are encouraged to take a look at Lakeland's full catalogue. If you are interested in a course not on this list, it is strongly recommended to check well in advance of the Letter of Permission (LoP) deadline with an advisor regarding its transferability and confirm if it would fulfill the requirement you are hoping it to, as courses without past transfer review can take significantly longer to be assessed.

Students should also ensure to check:

- course availability
- credit weighting
- asynchronous/synchronous and paced or self-paced learning
- course level and coding
- pre-requisites, and other restrictions during their searches.

Course selections should be cleared with an advisor ideally a couple of weeks prior to Letter of Permission (LoP) deadlines, and enrolment must be held off until the LoP is formally approved. Transfer credit agreements can change, so it is strongly recommended to check with an advisor in the Undergraduate Programs in Education office, via upe@ucalgary.ca, prior to submission. The University of Calgary cannot be, and is not, responsible for the fees paid on any course taken at other institutions.

**Please note* the Bachelor of Education does not allow course re-use, i.e., You cannot use ENGL 112 toward both your Foundational requirement, and an Elective course: it will only fulfill one or the other.*
