

Northern Lakes College – Transferable Courses

Updated: October 2023

The below acts as a 'starter' list of course ideas to fulfill the 6 Foundational and/or 5 Elective course requirements **mandatory for all Four-Year students, as well as** some **Teachable Subject Area** courses. Students are responsible for reviewing the offering institution's course catalogue for changes and updates.

If you are interested in a course not on this list, it is strongly recommended to check in with a Student Advisor well in advance of the Letter of Permission (LoP) deadline regarding transferability and applicability to program requirements.

Please contact the selected post-secondary institution for specific course offerings and admission processes. Students should also ensure to check:

- course availability
- credit weighting
- course delivery (In-person/web-based/asynchronous/synchronous and paced or self-paced learning)
- course level and coding
- prerequisites, antirequisites, and other restrictions
- that course transfers are unique, and not duplicated*

Course selections should be sent to upe@ucalgary.ca ideally a couple of weeks prior to Letter of Permission (LoP) deadlines, and enrolment must be held off until the LoP is formally approved. Transfer credit agreements are subject to change without notice and should be confirmed by an advisor. The University of Calgary cannot be, and is not, responsible for the fees paid on any course taken at other institutions.

Please note: **the Bachelor of Education does not allow course re-use. I.e., You cannot use ENGL 211 toward both your Foundational requirement, and an Elective course: it will only fulfill one or the other.*

Students are responsible for confirming that **transfer credit is not duplicated or an antirequisite. This is especially important to **check if you are attending multiple institutions.** I.e., You cannot receive credit for a course that transfers as MATH 265 from another post-secondary, if you already have credit for MATH 265 or MATH 249(antirequisite).*
